

DANIEL BOROWIECKI

Programming Enthusiast & Chemical Engineer

I graduated from Warsaw University of Technology with a Master's degree in Chemical Engineering. However, for the past 3 years, I have been working for Nielsen, a company specializing in FMCG market analysis.

I started as a regular employee and now I am an Operations Expert for the Spanish market. I am proficient in SQL and have experience working with databases.

My ability for abstract thinking allows me to draw valuable conclusions from them and diagnose hard-to-detect problems.

In my free time, I learned Python programming to better perform my daily duties.

Now, I want to transform programming from a hobby into a career that will allow me to showcase my capabilities.

TECHNOLOGIES

- Python 3 (pandas, Django)
- JS, HTML, CSS
- Oracle SQL
- Excel + VBA
- R
- MS Office
- Ansys Fluent (CFD suite)

FLUENT LANGUAGES

- Polish
- English

SKILLS

- Strong communication skills
- Inquisitiveness
- Fault diagnosis in complex systems
- Future-proofing
- Category B driver's license

HOBBIES & INTERESTS

- tabletop RPGs
- bicycling
- futurism & transhumanism

EXPERIENCE

Subject Matter Expert - Data Analytics, NielsenIQ

since May 2022

- Streamlining, improving, automation internal processes (Python and R)
- Creating new procedures (SOP)
- Training new employees
- Remote work in an international environment
- Maintaining the accuracy of data feeding the database factory (SQL)
- Understanding the Spanish FMCG market
- Providing responses to client inquiries
- Root Cause Analysis

Data Processing Specialist and Senior Specialist, Nielsen

August 2019 - April 2022

- Ensuring process quality in the data factory
- Diagnosing and correcting errors in the data factory
- Remote collaboration with Nielsen's office in Madrid

Laboratory Intern - Chemtech Krzysztof Januszkiewicz

January 2017 - June 2017

- research on filtration technologies

Student Jobs - Various Companies

2014 - 2019

WYKSZTAŁCENIE

Master of Engineering, Chemical and Process Engineering

Warsaw University of Technology

October 2012 - December 2021

- Master's and Bachelor's theses about synthesis of nanoparticles
